

Fillauer®

Upper Extremity

In 1914, George Fillauer Sr. founded the Red Star Pharmacy in Chattanooga, Tennessee. In 1934, his son and fellow CPO, Carlton Fillauer expanded his father's business to establish Fillauer Orthopedic as an innovator in the orthotics and prosthetics industry. Today, the Fillauer Companies are headed by Karl Fillauer as Chairman and his son Michael as the CEO, since their inception, the Fillauer Companies have always been headed by CPO's, and have grown to be a globally renowned leader in the development, manufacturing, distribution and application of orthotic and prosthetic products. The expansion has mainly taken place by acquisitions of smaller manufacturing companies with a unique profile. Over the years we have become nine companies under the Fillauer umbrella and during the 100 year celebration in 2014 a decision was taken on how the company would be steered into the next century. Therefore a consolidation took place in 2015 where all the companies became Fillauer.

Fillauer Europe was founded as Centri in 1948. Located just outside Stockholm, Sweden, Centri joined the Fillauer Companies 2002. While Centri maintained the close, cooperative relationships it traditionally had with prosthetists in Scandinavia, as Fillauer Europe it has now become the European headquarters of Fillauer. With its extensive portfolio of products, Fillauer Europe is committed to working with prosthetists both in Europe, but also in other regions of the world in order to create only the best solutions for patients with all manner of prosthetic and orthotic needs. In addition, Fillauer Europe plays a lead Research & Development role within Fillauer. Fillauer Europe's products include upper and lower extremity prosthetics and the Dynamic Walk which has catapulted us to the forefront of the drop foot orthotics market. Our R&D department also works in partnership with many of Sweden's leading hospitals to develop innovative and high-tech machinery.

Fillauer Product Warranty

Fillauer items under warranty will be replaced or repaired (at Fillauer's discretion) at no charge, if the material or workmanship is found to be defective. Normal wear is not warranted. The warranty will be void if the item has been: a. fabricated or installed outside Fillauer's recommendations b. modified c. exposed to a corrosive environment d. if used outside of the products intended use. Below is a summary of warranties.

ORTHOTIC, PROSTHETIC COMPONENTS AND EQUIPMENT

are warranted for 12 months from the date of shipment from the Fillauer warehouse or from an authorized Fillauer distributor with the following exceptions:

SUSPENSION SLEEVES, SILICONE GLOVES, SPINAL BRACES & CUSTOM LINERS/ SLEEVES

are warranted for 3 months from the date of shipment from the Fillauer warehouse or from an authorized Fillauer distributor.

Custom Fabrication Items, Prosthetic Liners, Dream Skin, Foot Shells, Cosmetic Gloves, Passive Hands and Trautman Tools & Accessories are warranted for 6 months from the date of shipment from the Fillauer warehouse or from an authorized Fillauer distributor.

HOSMER HOOKS

are warranted for 18 months from the date of shipment from the Fillauer warehouse or from an authorized Fillauer distributor.

ELBOWS

are warranted for 18 – 24 months from the date of shipment from the Fillauer warehouse or from an authorized Fillauer distributor. See specific product warranty for more information.

FILLAUER FEET

are warranted for 12, 24, or 36 months

12 months: Running Blade

24 months: AllPro, K2, Motion Foot® MX, Formula and Raize

36 months: Aeris Activity, Aeris Performance 2, Aeris Performance LP, Element, Element DS, Ibex XD, and Wave Comfort 3

COAPT & TASKA

Are warranted for 24 months from the date of shipment from the Fillauer warehouse or from an authorized Fillauer distributor.

All warranties are voided by alteration or misuse of the product.

Returns, Adjustments, and Credits

Inspect all goods immediately upon receipt for damage or errors in shipping. Call Customer Service within 3 business days in the event of errors or damage. Credit will not be issued for custom items made to specification or non-stock items older than 30days, unless Fillauer shipped in error or there is defect in materials or workmanship.

Prior approval and a return authorization number must be obtained from Customer Service for all goods returned. Credit for returned merchandise is subject to inspection and may be subject to a 15% restocking fee for merchandise in resalable condition. Goods returned without prior approval may be subject to a25% restocking fee. No credit shall be issued for goods that are more than 12 months old. Returns must be accompanied by a copy of original invoice, order number, or PO number. The return authorization number, provided by Customer Service, must appear on the shipping label.

Motion Control Limited Warranty

EFFECTIVE PERIOD

All Motion Control products have a two-year warranty, with the exception of MC ETDs, MC Hands, and MC Electric Wrist Rotators, which have a one-year warranty, and foot shells which have a 6 month warranty, effective on the date of delivery to the fitting center. Repairs have a 90-day warranty

COVERAGE

Seller warrants to Buyer that the equipment delivered hereunder will be free from defects in materials and manufacturing workmanship, that it will be of the kind and quality described, and that it will perform as specified in Seller's written quotation. The preceding limited warranties shall apply only to failures to meet said warranties that appear within the effective period of this Agreement. The effective period shall be two years from the date of delivery to the fitting center that has purchased the Motion Control product.

The conditions of any tests to determine failures to meet the above limited warranties shall be mutually agreed upon between Buyer and Seller. Seller must be notified of and may be represented at all tests that may be made. If any equipment fails to meet the foregoing limited warranties, Seller shall correct any such failure at Seller's option, either by: 1) Repairing any defective or damaged part(s); or, 2) Making available via collect shipment to the Buyer, any necessary repaired or replacement parts or assemblies.

Except as set forth in any applicable patient indemnity, the foregoing limited warranties are exclusive and in lieu of all warranties, whether written, oral, or statutory. No implied warranty, merchantability, or fitness for purpose shall apply. Seller does not warranty any products of others where the Seller serves solely as a distributor or reseller, specifically, any devices not manufactured directly by Motion Control, Inc.

The limited warranties and remedies set forth herein are conditioned: 1) Upon inspection of the equipment by Motion Control Inc. or its representative before the initiation of the Limited Warranty, and verification that the equipment is in good working order and free of damage; 2) Upon proper use and maintenance of the equipment and conformance with any applicable recommendations of Seller; 3) Upon Buyer promptly notifying Seller in writing within the Limited Warranty period of any defects; 4) Upon the Buyer making the equipment available for correction, by prepaid shipment to the Seller at Seller's option; and, 5) Upon receipt of the fees quoted at the time of the Agreement for the Limited Warranty. In no event shall Seller be liable for special or consequential damages. Determination of the damages or defects to be covered under the Limited Warranty shall be made by Motion Control personnel.

EXCLUSIONS

This agreement does not include:

1. Prosthetic services for fitting and maintaining the prosthesis made and used with the equipment.
2. Damage caused by neglect, misuse or improper operation by anyone other than the Seller.
3. Damage due to accident, fire, water, vandalism, unsuitable environmental conditions or replacement parts not approved or recommended by Motion Control.
4. Damage or defects occurring prior to the beginning of the Agreement, except as covered under a previous warranty agreement.
5. Modifications to the equipment which occur during the period of the Agreement except by mutual consent of the parties in writing, including payment of additional charges as specified by the Seller.

Natural Definition Glove

With the Natural Definition Glove, we take the prosthetic cosmetic glove to the next level. Using a dual layer PVC with added fibers and airbrush technique, the glove will show a deeper definition and a more natural look. Available in a red and yellow scale with eight colors in each scale, the glove will come in 16 skin colors covering most skin tones. The glove is treated with a Micro Coated surface making it more durable and stain resistible compared to a standard PVC glove. Making sure we take our responsibility towards the environment and a sustainable future, the PVC used is free from all heavy metals and phthalates which gives you a skin friendly and fully recyclable product.

Product Features

Airbrushed dual layer PVC with fibers for natural definition

Skin friendly

Micro Coated for durability, easy cleaning and low friction against clothing

Recyclable - Free from all heavy metals and phthalates

Warranty

This product has a 6 month warranty against manufacturing defects

Natural Definition Guide

For your convenience, we made the Natural Defintion Guide to help determine which color to choose for your patient.

The Guide consists of two different scales, R and Y (Red and Yellow).

Each one has 8 different colors to choose from to cover most skin tones.

Child CAPP Hand

Specifications

Wrist to fingertip: 3.3 in. (84 mm)

Weight: 5.7 oz. (161 g)

Thread: 1/2"-20

Cable exit: Dorsal

Product Features

- Soft, durable urethane cosmesis with a life-like appearance
- Adjustable spring tension
- Does not require cosmetic glove
- Smooth, voluntary opening performance

Hook Materials & Measurements

Standard Hooks

Hook measurements refer to the length from the top of the fingers to the base of the hook, not including the threaded stud.

Work Hooks

For work hooks, the tool tab is not included in the measurement.

Titanium - Same strength as steel but 40% lighter. Titanium hooks are only 10% heavier than aluminum

Aluminum - 60% lighter than stainless steel and adequate strength for light to medium use. A maximum of 5 rubber bands can be used for prehension.

Stainless steel - Heavier than aluminum and is customarily for heavy duty use. Rubber bands can be used in conjunction with steel springs for maximum prehension.

Plastisol coating - Nontoxic plastisol is normally used on pediatric hooks to provide protection for themselves and other children. Adults also have their hooks coated to electrically insulate the device.

Nitrile rubber lining - Nitrile rubber provides a secure, non-marring, holding surface and resistant to most chemicals.

Serrated surface - A serrated surface allows for an extra secure hold suitable for heavy work.

Ball bearings - Most of the hooks are made with precise ball bearing races. This prevents play and gives the user the sensitive proprioception touch.

Endo-Arm Elbow

SE TR

Specifications

Length 5.5 in. (140 mm)

Weight: 4.6 oz. (132g)

Material: Aluminum

Warranty: 12 month

Product Features

- Shortening of the forearm when flexing the elbow to reduce the wear on the cosmetic foam covering the finished prosthetic
- The elbow unit will be delivered with the lock slide set so the elbow can be locked by pressing the button from the lateral side. This can be changed in the workshop if needed
- The proximal attachment features a M12*1.5mm internal thread or using a M8 bolt attachment to the socket (M8 bolt not included) or use the TH Friction adapter kit (631028353) to attach to a 22mm tube
- The distal attachment is a 20mm tube clamp, standard to our EndoArm Tube. Please note that this tube cannot be shorter than 65mm due to the lift assist
- Complete modularity with our other EndoArm Products
- Infinite locking positions over its 150° ROM

JAWS

- US
- TR
- TH

Product Features

- Heavy Duty, VO, terminal device. Universal L & R.
- Shift lever for easy force adjustment by the user.
- 4 levels of (gripping force) adjustment.
- Cable operated or manually operated.
- Snap On-Off feature, Never locks onto objects.
- Radial-Ulnar, friction-adjustable wrist pivot.
- Waterproof
- Replaceable polyurethane gripping surface component.

Specifications

- Color: ALuminium & Black
- Materials: Aircraft Aluminu, stainless steel, polyrethane. Jaws is constructed of aircraft grade aluminium alloys and surgical grade stainless steel and utilizes proprietary TRS polymers.
- Applications: Teenagers and Adults capable of handling a high performance terminal device.
- Trans-radial, trans-humeral and bi-lateral applications.
